Change Energy Pty Ltd

Approval of amendments to standard form contract

The Economic Regulation Authority has approved minor amendments to Change Energy's [electricity](#) standard form contract. The amendments align the contract with amendments made to the *Electricity Industry (Customer Contracts) Regulations 2005*, which was gazetted on 17 June 2022 and took effect on 1 January 2023.

A licensee that retails electricity to small use customers is required to have an ERA-approved standard form contract.¹

Change Energy holds electricity licence [ERL25](#), authorising it to sell electricity to business customers on the South West Interconnected System.

Under the *Electricity Industry Act 2004*, the ERA must not approve an electricity standard form contract if it considers that the contract does not meet the requirements of the *Electricity Industry (Customer Contracts) Regulations 2005*, or will be inconsistent with the Act or any other written law, or any term, condition or provision of the licence. The ERA is satisfied that the amended standard form contract meets these requirements.
