Southern Cross Energy Partnership

Minor amendments to electricity distribution licence EDL3 and electricity transmission licence ETL4

The Economic Regulation Authority has approved minor amendments to TEC Desert Pty Ltd and TEC Desert No. 2 Pty Ltd's (trading as Southern Cross Energy Partnership) electricity distribution licence EDL3 and electricity transmission licence ETL4.

Southern Cross Energy is at an advanced stage of development of the Mount Keith west network upgrade project, to construct and subsequently operate new electrical transmission and distribution infrastructure at Mount Keith. The boundaries of EDL3 and ETL4 have been amended to allow for the extension of 11kV distribution line and 132kV transmission line respectively within this project.

The ERA considers the change to the licences to be a minor amendment that does not require public consultation.

The amended licences EDL3 (version 11), ETL4 (version 11) and the maps are available on the [Licence Holders webpage](#).
