Policy statement

We recognise that financial hardship can be experienced by anyone. Customers impacted by financial hardship may find it difficult to pay for a variety of reasons, but regardless of their circumstances, all customers will be treated with fairness and compassion. We do our best to work with our customers to find an appropriate, realistic and effective payment solution.

Purpose

We understand it can be difficult to ask for support, so be assured we will treat your situation sensitively and respectfully.

This policy outlines the minimum standards Water Corporation (“our”, “we” or “us”) will apply to assist a residential customer (“you”) who does not have the capacity to pay their account due to financial hardship.

The policy provides guidance to employees, customers and stakeholders. If you are experiencing financial hardship our main aim is to ensure:

- you engage early to identify hardship.
- you are treated with fairness, integrity and confidentiality and your personal information is kept confidential.
- you will be provided with a range of flexible options tailored to meet your individual needs.
- you will receive assistance and are encouraged to proactively manage your account.
- you will receive the most appropriate solution to meet your needs once contacting Water Corporation directly or via a financial counsellor.
- you are provided with information and advice on concession eligibility, water efficiency and the relevant support programs available; and
- once you’ve engaged with us, you are protected from additional overdue debt actions such as supply restriction, referral to mercantile agents, legal action and associated costs.

The policy does not apply to non-residential customers, though we encourage any customer experiencing financial hardship to contact us as soon as possible to explore payment options.

Being in financial hardship can be difficult, and we understand that. We will work toward finding a solution that will help with your account, keep your water flowing and pay for what you use.

All options referred to in this policy are available to the owner being the person liable for all charges for the property. We are continually looking for ways to support tenants. For this support to occur, tenants will need to be registered to receive water use bills as authorised by the owner.

You are considered to be in financial hardship if paying your water account will affect your ability to meet your basic living needs. In short, if you have the intention but not the financial capacity to pay.

When setting the conditions of the payment plan, we will involve you and your financial counsellor and consider how much you can afford to pay, and, if relevant, your water consumption history.

We will review and revise your payment plan where appropriate. If our review indicates you are unable to meet your obligations under the plan, it will be revised.

If you do not adhere to the conditions of the payment plan, we will make reasonable efforts to support you before taking further action.

Tenants

Tenants registered to receive water use bills can contact us directly to discuss options when experiencing payment difficulties. We will negotiate a proposed payment plan with you and notify the owner of the proposed plan on your behalf, as their consent is required for the plan to proceed. We can also provide you with assistance and information on ways to manage future water use bills.

Owners

On request we will issue water use bills to either your nominated property manager or tenant. By authorising a tenant to receive water use bills, you also authorise us to discuss matters in relation to the water use bills directly with them. This does not affect your liability for the charges. Where the water use bill is sent to anyone other than the owner and remains unpaid, formal recovery action will commence against the owner. If you are having payment difficulties or in financial hardship, please contact us to discuss solutions. If your tenant is registered to receive water use bills and contacts us to request assistance with water use charges, we will inform you of the proposed plan for your consent. If you're aware your tenant is experiencing payment difficulties or financial hardship, we encourage you to suggest they contact us to discuss payment options.
