Amanda Energy Pty Ltd Approval of amended gas standard form contract

The Economic Regulation Authority has approved amendments to Amanda Energy Pty Ltd's (trading as Amanda Energy Solutions) gas standard form contract. The amended standard form contract is available on the [ERA's website](#).

The amendments to the standard form contract align it with the current *Compendium of Gas Customer Licence Obligations* and *Energy Coordination (Customer Contracts) Regulations 2004* and improves customer readability.

A licensee that retails gas to small use customers is required to have an ERA approved standard form contract.¹

Amanda Energy holds gas trading licence [GTL15](#) authorising it to supply gas to small use business customers in the coastal supply area. Amanda Energy does not supply gas to residential customers.

Under the *Energy Coordination Act 1994*, the ERA must not approve a standard form contract if it considers that the contract does not meet the requirements of the relevant Act or regulations, any other written law, or any term, condition or provision of the relevant licence. The ERA is satisfied that Amanda Energy's amended standard form contract meets these requirements.
