

**Goldfields Gas Pipeline
2025-29 Access Arrangement proposal**

**Claim for confidentiality
1 January 2024**

Contents

1. Introduction	3
Attachment 1 - Confidentiality claim	4

1. Introduction

Goldfields Gas Transmission has submitted a proposal for the revision of the Goldfields Gas Pipeline access arrangement. The proposal is for the five-year period from 1 January 2025 to 31 December 2029.

GGT is claiming confidentiality for some supporting information submitted with the proposed revisions.

Chapter 10, Part 2 of the National Gas Law contains provisions for the handling of confidential information. Part 16 of the National Gas Rules contains provisions relating confidential information including Rule 137 which requires that a scheme pipeline service provider must not disclose relevant confidential information; or use relevant confidential information for a purpose other than the purpose for which the information was given to the service provider. This is relevant to claims for confidentiality relating to customer information.

We have also been guided by the requirements set out in the Economic Regulation Authority's Gas Access Arrangement Guideline - A procedural guideline for the economic regulation of Western Australian gas pipelines (July 2022).

In considering the claim for confidentiality we have sought to minimise the amount of confidential information. We understand the importance of transparency and providing the information to enable greater understanding of our proposal.

Attachment 1: Claim for confidentiality

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit
<p>Demand forecast model (filename GGP-AA5-Demand forecast model-1 January 2024-Confidential</p> <p>Tab 3. Capacity by customer</p> <p>Tab 4. Throughput by customer</p>	<p>Commercial in confidence – details of individual customers</p>	<p>Demand forecast information for individual customers</p>	<p>Market intelligence (information which may provide an advantage to a NSP's competitors for non-regulated or contestable activities)</p> <p>Other (information which the NSP claims is confidential but does not fit into one of the above categories)</p>	<p>Market intelligence – GGT's competitors would have visibility of the terms on which we have contracted with our customers. For example, trucked LNG and trucked diesel providers are competitors to GGT.</p> <p>Other - Customer specific information (contracting entities, agreement Term information, contracted capacity). This information is confidential information in accordance with Part 16 of the National Gas Rules. Rule 137 requires that a scheme pipeline service provider must not: (a) disclose relevant confidential information; or(b) use relevant confidential information for a purpose other than the purpose for which the information was given to the service provider.</p>	<p>Detriment to GGT – result in breach of contract, loss of customer confidence in GGT, GGT's competitors gaining access to sensitive contract information increasing risk of loss of revenue.</p> <p>Detriment to GGT's customers – competitors may be able to determine operational requirements for GGT customers activities.</p>	<p>Disclosure of the identified information would cause GGT to be in breach of its commercial agreements.</p> <p>Publication of individual customer information likely to be detrimental to customers. This information is not in the long-term interest of consumers.</p> <p>The significant detriment is not outweighed by the public benefit.</p>

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit
<p>GGP-AA5-Attachment 6.1-Cost allocation method-1 January 2024-Confidential.</p> <p>Section 8, page 27</p>	<p>The percentage of shared corporate expenditure allocated to covered portion of GGP.</p>	<p>Security of Critical Infrastructure – capex and opex</p>	<p>Information affecting the security of the network (information which, if made public, may jeopardise security of the network or a NSP's ability to effectively plan and operate its network).</p>	<p>The Security of Critical Infrastructure Act 2018 (the SOCI Act) limits the use and disclosure of protected information as defined within the Act.</p> <p>For a summary refer to Protected information (cisc.gov.au)</p> <p>Claiming confidentiality for the cost allocation percentage to prevent disclosure of the size of APA's SoCI program and the total GGP SoCI program.</p>	<p>The information identified as confidential can affect the security of the GGP and result in disruptions to supplies to customers.</p> <p>APA (which owns GGP) is Australia's largest natural gas infrastructure business with a broad portfolio of energy assets. GGP has a high degree of interconnectedness with other industries and services. Impacts to GGP from disruptions would have broader impact and ramifications across the economy and society.</p> <p>There is a risk of comparable recent global events to result in significant financial and operational impacts and consequences for GGP.</p>	<p>The identified detriment risks significant security and reliability of services.</p> <p>Disruptions would have broader impact and ramifications across the economy and society</p> <p>The detriment is not outweighed by the public benefit. Cost allocation method has oversight by the ERA. There is no public benefit of this information being disclosed.</p> <p>The only interested / beneficial parties are those seeking to disrupt and cause a cyber event.</p> <p>Publication of information is not in the long-term interest of consumers.</p>

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit
<p>Cost allocation model GGP-AA5-Attachment 6.2-Cost allocation model-1 January 2024-Confidential</p>	<p>Commercial in confidence – details of individual customers</p>	<p>Demand forecast information for individual customers</p>	<p>Market intelligence (information which may provide an advantage to a NSP's competitors for non-regulated or contestable activities) Other (information which the NSP claims is confidential but does not fit into one of the above categories)</p>	<p>Market intelligence – GGT’s competitors would have visibility of the terms on which we have contracted with our customers. For example, trucked LNG and trucked diesel providers are competitors to GGT. Other - Customer specific information (contracting entities, agreement Term information, contracted capacity). This information is confidential information in accordance with Part 16 of the National Gas Rules</p>	<p>Detriment to GGT – result in breach of contract, loss of customer confidence in APA, APA’s competitors gaining access to sensitive contract information increasing risk of loss of revenue. Detriment to GGT’s customers – competitors may be able to determine operational requirements for GGT customers activities.</p>	<p>Disclosure of the identified information would cause GGT to be in breach of its commercial agreements. The significant detriment is not outweighed by the public benefit. Publication of information is not in the long-term interest of consumers.</p>

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit
<p>GGP Tariff model</p> <p>GGP-AA5-Tariff model-1 January 2024-Confidential</p> <p>Tabs Load Yarraloola</p> <p>Tabs Load NGI</p>	<p>Commercial in confidence – details of individual customers</p>	<p>Demand forecast and receipt point information for individual customers</p>	<p>Market intelligence (information which may provide an advantage to a NSP's competitors for non-regulated or contestable activities)</p> <p>Other (information which the NSP claims is confidential but does not fit into one of the above categories)</p>	<p>Market intelligence – GGT’s competitors would have visibility of the terms on which we have contracted with our customers. For example, trucked LNG and trucked diesel providers are competitors to GGT.</p> <p>Other - Customer specific information (contracting entities, agreement Term information, contracted capacity). This information is confidential information in accordance with Part 16 of the National Gas Rules. Rule 137 requires that a scheme pipeline service provider must not: (a) disclose relevant confidential information; or(b) use relevant confidential information for a purpose other than the purpose for which the information was given to the service provider.</p>	<p>Detriment to GGT – result in breach of contract, loss of customer confidence in GGT, GGT’s competitors gaining access to sensitive contract information increasing risk of loss of revenue.</p> <p>Detriment to GGT’s customers – competitors may be able to determine operational requirements for GGT customers activities.</p>	<p>Disclosure of the identified information would cause GGT to be in breach of its commercial agreements.</p> <p>Publication of individual customer information likely to be detrimental to customers. This information is not in the long-term interest of consumers.</p> <p>The significant detriment is not outweighed by the public benefit.</p>

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit
<p>Safeguard Mechanism option analysis and forecast model</p> <p>GGP-AA5- Attachment 13.1-Safeguard Mechanism Forecast-1 January 2024- Confidential</p>	<p>Forecast price of Australian Carbon Credit Units (ACCUs).</p>	<p>Opex.</p> <p>Forecast opex step change for meeting Safeguard Mechanism obligations.</p>	<p>Other (information which the NSP claims is confidential but does not fit into one of the above categories)</p> <p>Intellectual property of RepuTex Energy.</p>	<p>RepuTex provide data for the carbon market through a paid subscription service.</p> <p>APA has a contract with RepuTex for the provision of forecast price of carbon offsets.</p> <p>The figures used are RepuTex’s intellectual property and not to be disclosed publicly.</p> <p>We have received permission from RepuTex to disclose the information to the ERA only.</p>	<p>May result in breach of contract as we do not have the rights to share this information.</p> <p>Publication of ACCU prices would be detrimental to our supplier RepuTex.</p> <p>Payment by subscribers is Reputex’s business model. Disclosure of the information would result in financial and reputational harm to Reputex.</p>	<p>Disclosure of the identified information would cause APA to be in breach of the terms and conditions it has signed up to when receiving this pricing from RepuTex.</p> <p>There are other sources of information a carbon costs offsets. There is no public benefit of disclosing this information.</p>
<p>GGP SoCI program</p> <p>GGP-AA5-SoCI operations business case -1 January 2024- Confidential</p>	<p>Commercial in Confidence information relating to APA/GGT’s Security of Critical Infrastructure vulnerabilities and remediation program</p>	<p>Security of Critical Infrastructure</p> <p>Capital expenditure</p> <p>Operating expenditure</p>	<p>Information affecting the security of the network (Information which, if made public, may jeopardise security of the network or a NSP’s ability to effectively plan and operate its network).</p>	<p>The Security of Critical Infrastructure Act 2018 (the SOCI Act) limits the use and disclosure of protected information as defined within the Act.</p> <p>For a summary refer to Protected information (cisc.gov.au)</p> <p>The information may affect GGT’s ability to maintain the integrity, availability, integrity, reliability of GGT’s critical infrastructure</p>	<p>The information identified as confidential can affect the security of the GGT and result in disruptions to supplies to customers.</p> <p>APA (which owns GGT) is Australia’s largest natural gas infrastructure business with a broad portfolio of energy assets. GGT has a high degree of interconnectedness with other industries and services. Impacts to GGT from disruptions would have broader</p>	<p>The identified detriment risks significant financial and operational impacts and consequences for GGT impacts.</p> <p>Disruptions would have broader impact and ramifications across the economy and society</p> <p>The significant detriment is not outweighed by the public benefit.</p> <p>Publication of information is not in the long-term interest of consumers.</p>

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.	Provide a brief explanation of why the confidential information falls into the selected category.	Specify reasons supporting how and why detriment would be caused from disclosing the confidential information.	Provide any reasons supporting why the identified detriment is not outweighed by the public benefit
				assets, systems, supply chain and personnel	impact and ramifications across the economy and society. There is a risk of comparable recent global events to result in significant financial and operational impacts and consequences for GGT.	
GGP-AA5-Attachment 10.14-SIB business case - Physical security-1 January 2024-Confidential	Information concerning the physical security of GGT's assets.	Critical Infrastructure Security Capital expenditure	Other (information which the NSP claims is confidential but does not fit into one of the above categories)	The Security of Critical Infrastructure Act 2018 (the SOCI Act) limits the use and disclosure of protected information as defined within the Act. For a summary refer to Protected information (cisc.gov.au) The information may affect GGT's ability to maintain the integrity, availability, integrity, reliability of GGT's critical infrastructure	The information identified as confidential can affect the security of GGT assets and result in disruptions to supply to the customer. Physical security of GGT assets being compromised would pose a danger not only to GGT but to customers and anyone connected to the GGP – nature of transmission pipelines means that consequences due to incidents might not be isolated.	Disclosure risks potentially breaching the SoCI 2018 Act. The identified detriment risks significant security, safety, and operational impacts for personnel and the public. Disruptions would have broader impact and ramifications across the economy and society. The significant detriment significantly outweighs any public benefit. Publication of Secure Energy information is not in the long-term interest of consumers.

Title, page and paragraph number of document containing the confidential information	Description of the confidential information.	Topic the confidential information relates to (e.g. capex, opex, the rate of return etc.)	Identify the recognised confidentiality category that the confidential information falls within.
