## ARC Infrastructure

### Proposed costing principles – Invitation for public submissions

The Economic Regulation Authority is seeking public comment on revised costing principles proposed by Arc Infrastructure.

Arc has submitted revised costing principles following the amendment of the *Railways (Access) Code 2000* in December 2023. These amendments have expanded the amount and scope of information to be included in the costing principles.

The costing principles are a statement of the rules and practices that Arc will follow when determining the costs which apply to floor and ceiling price tests. These tests are used to guide negotiations when a party seeks access to Arc's network.

[Arc's proposed costing principles](#) are available on the ERA website.

### Invitation for submissions

The ERA invites interested parties to make submissions on the proposed Costing Principles.

Submissions close 4:00 pm (WST) Friday, 19 April 2024.

Submissions can be lodged online using the form on our [Current Consultation webpage](#).
