### Draft Decision on the Dampier to Bonbury Natural Gas Pipeline Access Arrangement

Prinsep Cleaning Services is a small business operation and we provide cleaning services to organisations like Epic.

As a small business we are very concerned over the potential impact your decision will have on our business. The impact will no doubt affect other smaller businesses that are part of the Epic organisation in WA.

We own our business and take pride in the cleaning services we perform.

We feel very strongly about the decisions being handed down by your office particularly the financial impact it will have on Epic's ability to operate and the domino effect it will have on small businesses like ours.

We are cleaning company and are proud to be associated with an organisation that prides itself in community values by setting high standards for safety and the protection of the environment. We have been associated with the DBNGP for over seven years and we feel that the decision being handed down if made final will put in jeopardy all these values. The ramifications will go beyond the owners of Epic – we the community of WA are the ones who will suffer the consequences.

We support Epic Energy and urge you to reconsider the content of your draft decision when making the final decision.

Yours truly,

Sue Smour
