Office of Gas Access Regulation

Fax No. 9213 1999

I am writing to you in support of Epic Energy's position with regard to the recent regulatory decision as I feel the draft decision has significant implications for future investment in Western Australia.

Epic would no longer be bound by any commitments to expand the capacity of the pipeline and any future projects, such as an extension of the DBNGP into Albany and Esperance, would be placed at serious risk.

In conclusion, if implemented, the draft decision would have a negative impact on Epic's financial position and viability in Western Australia moving forward which would inevitably flow on to contractors such as us.
