Dear Paul

#### **WILUNA SEWERAGE OPERATING AREA**

The Minister for Water Resources has negotiated with the Corporation to develop a new wastewater treatment pond for the town of Wiluna, which will replace the existing wastewater treatment ponds that present a health risk to the residents.

The wastewater assets in Wiluna are owned by 5 different entities, each owning a part of the existing assets. To provide future services to the town, the Corporation has negotiated with these owners to transfer the existing wastewater assets to the Corporation.

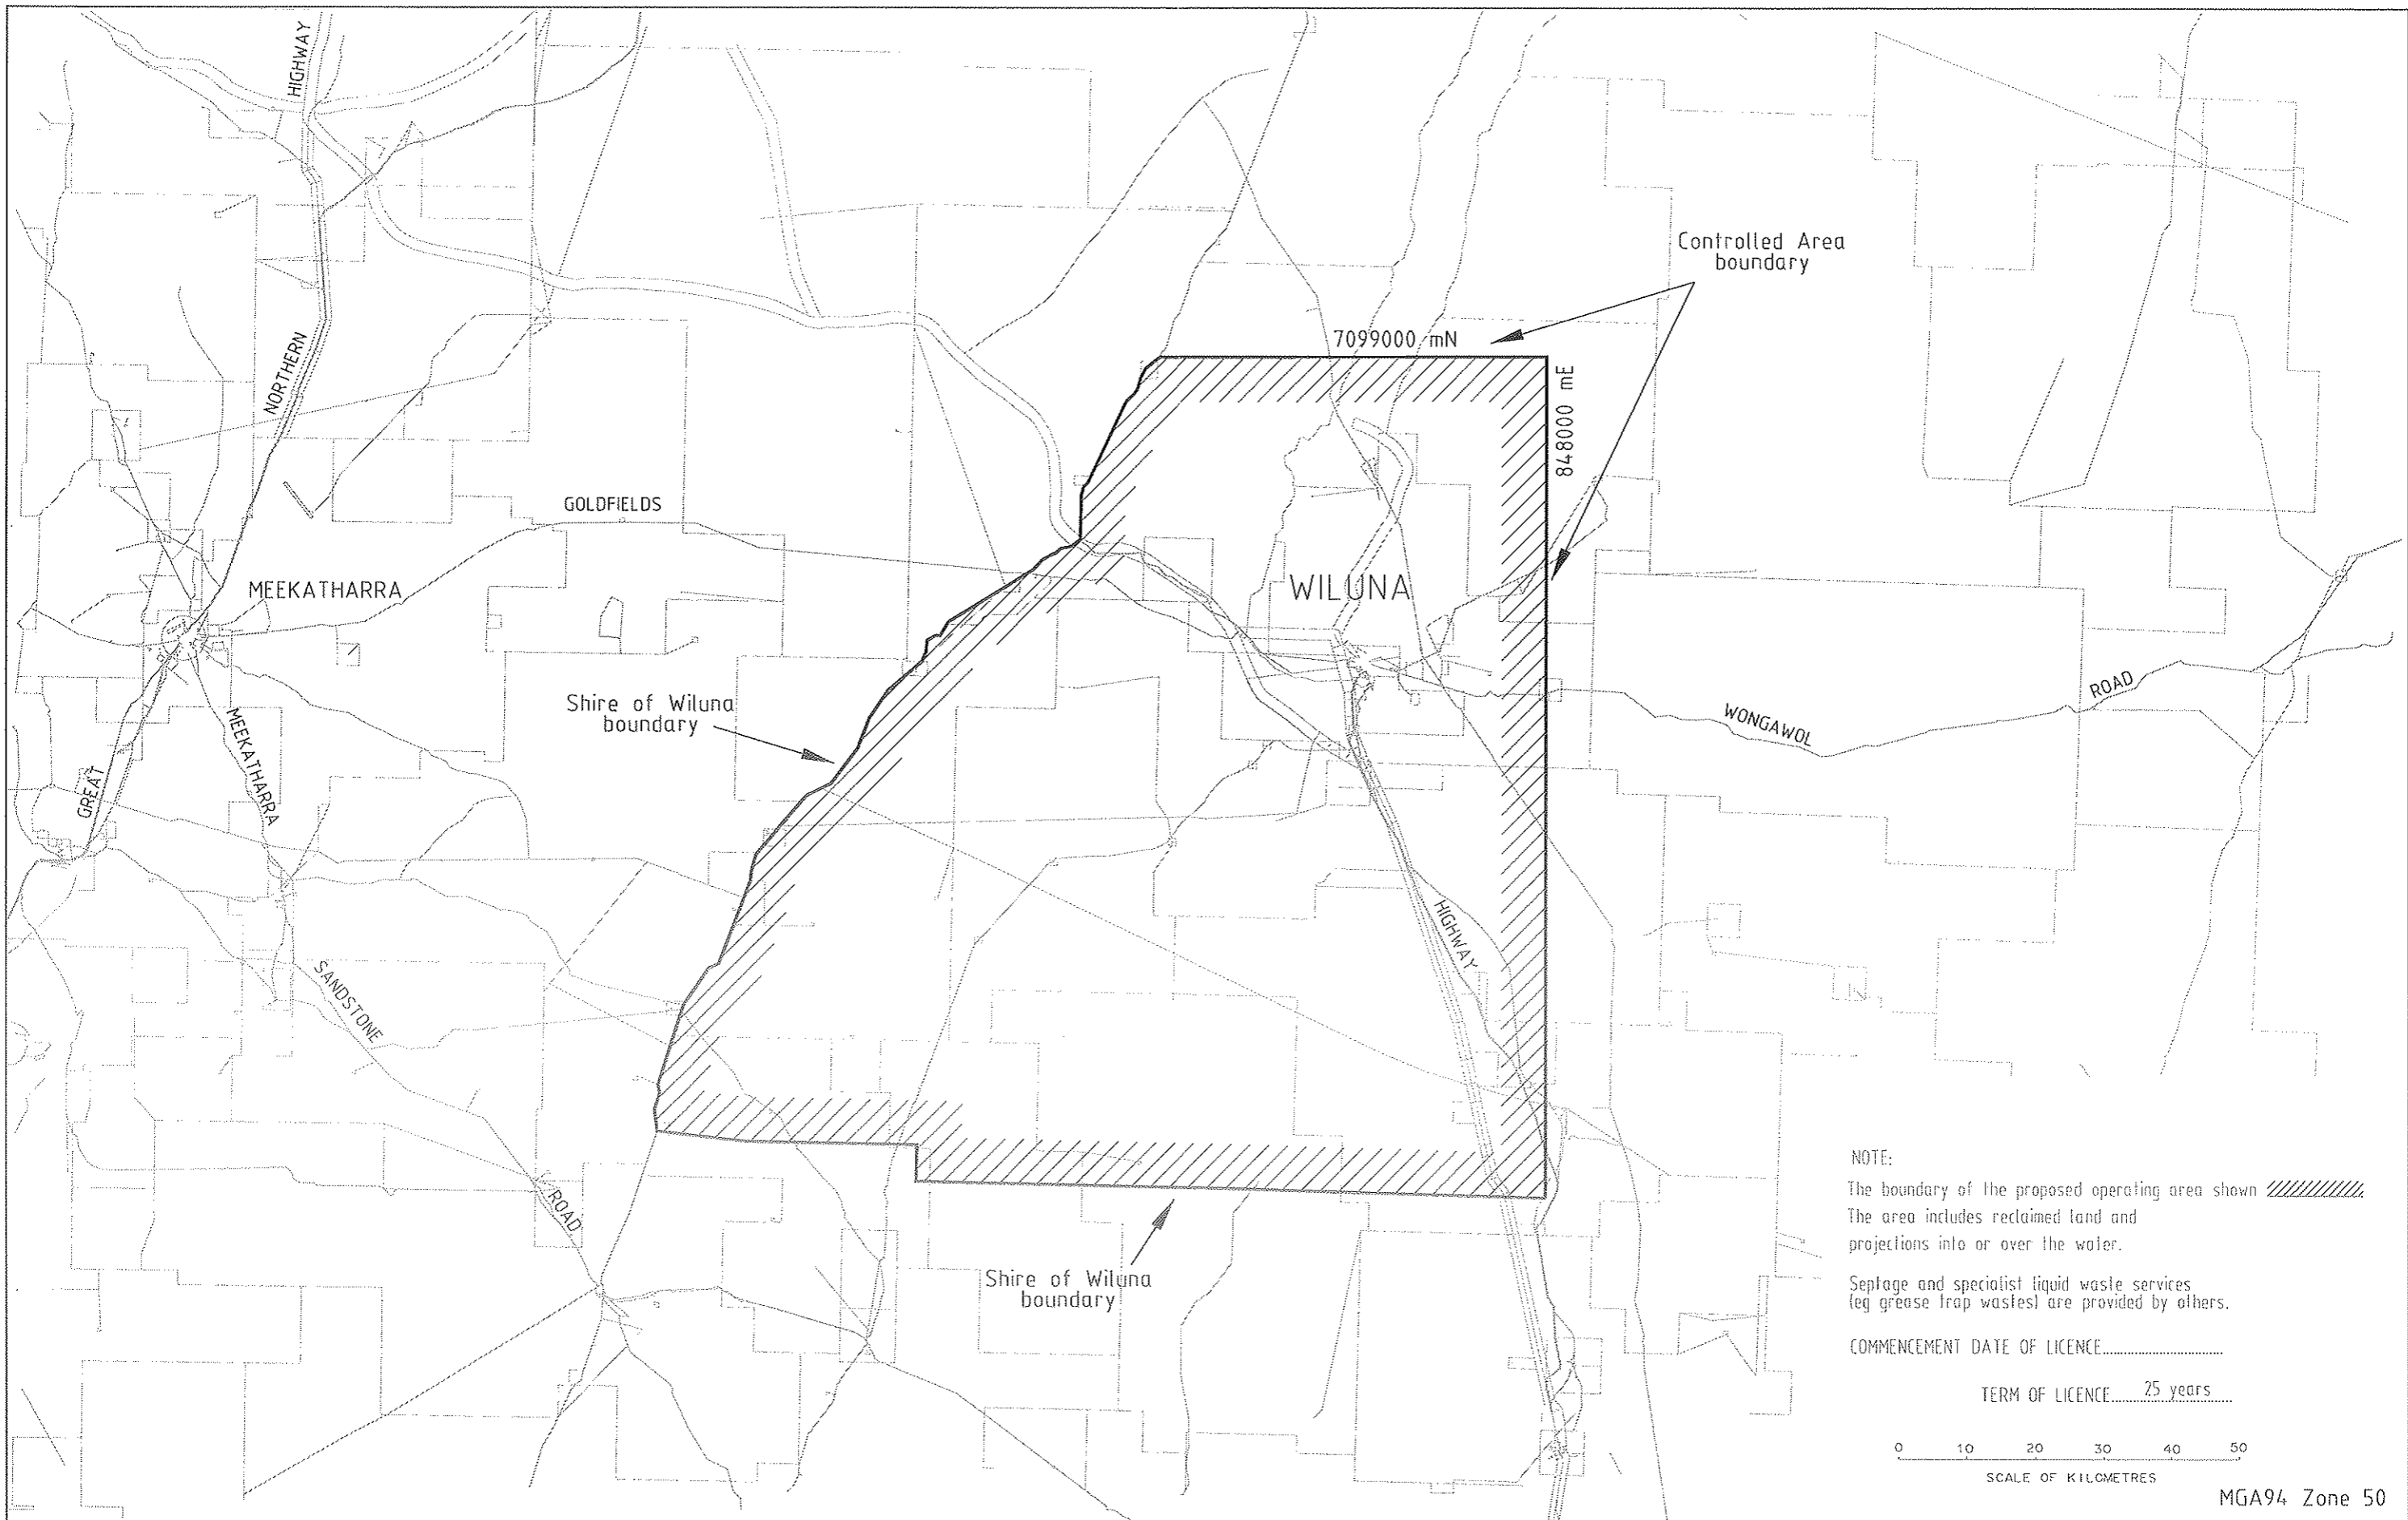

The Water Corporation does not have a sewerage licence Operating Area covering this town. The Goldfields/South West Region Sewerage Controlled Area boundary passes through the Shire of Wiluna. Therefore, consistent with current practice we have developed an Operating Area that uses the Shire of Wiluna boundary to the West and South and the Controlled Area boundary to the East and North.

The Corporation requests approval of the Wiluna Sewerage Operating Area and attached Operating Area drawing (OWR-OA-128 E) by the Authority.

Yours sincerely

Mandy Damant  
Manager Risk Management  
Att.

NOTE:  
 The boundary of the proposed operating area shown The area includes reclaimed land and projections into or over the water.

Septage and specialist liquid waste services (eg grease trap wastes) are provided by others.
