Mr Lyndon Rowe  
Chairman  
Economic Regulation Authority  
Level 6, 197 St Georges Terrace  
Perth WA 6000

Dear Lyndon

## **MAJOR AUGMENTATION PROPOSAL – Mid-West 330 kV Transmission Line**

### **SUPPLEMENTARY SUBMISSION**

Thank you for your letter dated 5 November 2007 inviting the provision of further information on a number of matters relating to Western Power's major augmentation proposal for the mid-west 330kV transmission line, previously submitted on 2 October 2007

Accordingly, I am pleased to submit a formal supplement to the major augmentation proposal which includes:

- Details of the line corridor selection process and outcomes;
- Western Power's responses to unsolicited letters from stakeholders to the ERA concerning the corridor selection process;
- Western Power's response to the particular matters in the ERA's Issues Paper;
- Western Power's comments on PB's report to the ERA; and
- Further supporting information regarding the matters in your letter.

An electronic version and one printed copy of the submission documents are enclosed. I confirm that all the material provided is suitable for publication by the Authority.

I trust this additional information demonstrates to the Authority that the proposed mid-west 330 kV transmission line satisfies the regulatory test requirements of the Code for a major augmentation.

Yours sincerely

**DOUG ABERLE**
