Gas Compliance Reporting

Corrigenda - Gas Compliance Reporting Manual and Gas Licence Performance Reporting Documentation

The Economic Regulation Authority has published a Corrigenda – Gas Compliance Reporting Manual and a revised Gas Compliance Reporting Manual.

Following publication of the *Code of Conduct for the Supply of Electricity to Small Use Customers 2008* (in January 2008), the Authority has aligned, where possible, the performance reporting obligations for gas traders with those that apply to electricity retailers. The Authority has also revised the performance reporting obligations for gas distributors to further streamline the number of reportable performance indicators.

The Corrigenda describes the amendments made to the Manual as a result of the changes to the performance reporting indicators. The [Corrigenda](#) and [Manual](#) are available on the Authority's web site.

The Authority has also published the following documents to assist gas distribution and trading licensees with their performance reporting obligations:

- Gas Distribution Licence Datasheets.
- Gas Trading Licence Datasheets.
- Gas Distribution Licence Performance Reporting Handbook.
- Gas Trading Licence Performance Reporting Handbook.

The data collection sheets are to help licensees with their reporting obligations by providing data tables that define the amount and type of information that is to be reported against each performance reporting indicator in the Manual.

The Performance Reporting Handbooks provide guidance on the:

- definitions to be applied to the performance indicators in the datasheets; and
- how inputs to the datasheets should be calculated (where appropriate).

The Datasheets and Reporting Handbooks are available on the Authority's [web site](#).
