Electricity Compliance Reporting

Corrigenda - Electricity Compliance Reporting Manual

The Economic Regulation Authority has approved the publication of the Corrigenda – Electricity Compliance Reporting Manual.

In January 2008, the Authority introduced the *Code of Conduct for the Supply of Electricity to Small Use Customers 2008*, replacing the 2004 edition. The Corrigenda describes the amendments that have been made to the Electricity Compliance Reporting Manual resulting from the publication of the latest Code of Conduct.

The amendments to the Manual include:

- updates to the section on compliance obligations to incorporate those contained in the latest Code of Conduct;
- the inclusion of two additional requirements in the Type 1 (immediate reporting) obligations;
- the removal of redundant provisions; and
- a restructure to improve legibility and include other obligations and provisions that are not directly related to the 2008 Code.

The [Corrigenda](#) and [Manual](#) are available on the Authority's web site.
