

## NOTICE

### Time Extended for Submissions on Proposed Revisions to Western Power's Access Arrangement

The Economic Regulation Authority has further extended the time for public submissions on Western Power's proposed revisions to its access arrangement for the South West Interconnected Network, to 17 December 2008.

This further extension follows a previous [notice](#) that was issued in November, extending the time for making submissions from 19 November to 3 December 2008.

The extension is made in response to new information provided by Western Power to correct Appendix 8 of its revised access arrangement information that was submitted on 1 October 2008. The Authority has determined that a time extension is necessary to properly consider all matters, and it is also satisfied that it has taken all reasonable steps to fully utilise the times and processes available within Chapter 4 of the *Electricity Networks Access Code 2004*. The extension has been provided pursuant to the requirements of sections 4.66(d) and 4.64 of the Access Code.

The new information from Western Power was provided after the Authority identified discrepancies between Appendix 8 of the access arrangement information and other information provided to the Authority. The new information is available from the Authority's [web site](#).

Interested parties are therefore advised that the revised deadline for submissions on Western Power's proposed access arrangement revisions is **4:00 pm (WDST) Wednesday, 17 December 2008**.
