## NOTICE

### Corrigenda - Water Compliance Reporting Manual

The Economic Regulation Authority has approved the publication of the [Corrigenda – Water Compliance Reporting Manual](#) (corrigenda) and the amended [Water Compliance Reporting Manual](#) (manual).

The Authority published the manual In August 2008 to accompany the introduction of new standard form water services licences.

The corrigenda describes the amendments that have been made to the manual resulting from licensees bringing to the Authority's attention drafting errors and opportunities to clarify the compliance and performance reporting obligations applying to water licences.

The amendments to the manual include:

- the reclassification of a Type 1 (immediate reporting) compliance obligation to a Type 2 (annual reporting) obligation;
- amendments to the licence compliance obligations and licence performance reporting obligations to remove redundant obligations, correct errors and insert new obligations that were overlooked in the manual; and
- miscellaneous amendments to remove redundant provisions and restructure the document to improve legibility.

The corrigenda and manual are available on the Authority's [web site](#).
