Dear Mr Rowe

Goldfields Gas Pipeline - Proposed Revisions to Access Arrangement – Public Submission of Supporting Information

I refer to our letter dated 7 April 2009 in which GGT advised that further information would be provided to the Economic Regulatory Authority in support of the revisions to the GGT Access Arrangement lodged 23 March 2009. GGT provides the following:

1. Public supporting submission ("Public Submission") including:
 - derivation of the Total Revenue and Reference Tariff;
 - Capital Base and depreciation;
 - cost of capital including reports from Synergies Consulting Group (Synergies);
 - details of actual capital and non-capital costs incurred between 2005 and 2008 and forecast costs for 2009 and discussion on where there has been material variation between actual costs and the costs as approved in the Access Arrangement;
 - details of forecast capital and non-capital costs for the period 2010 to 2014;
 - report from Synergies regarding Asymmetric Risk; and
 - development of the Reference Tariff.

In this Public Submission, GGT has deleted some of the information that was contained in the confidential supporting submission dated 7 April 2009 that is considered to be confidential and has identified such deletions by the insertion of the words: "[**Information Confidential**]".

The Public Submission will also be provided electronically.

GGT looks forward to working with the Authority during the coming assessment process.

Yours faithfully

David King
General Manager
