NOTICE

Revisions to Goldfields Gas Pipeline Access Arrangement and Access Arrangement Information

Issues Paper and Supporting Information

The Economic Regulation Authority today released an [issues paper](#) on the proposed revised Goldfield Gas Pipeline (GGP) access arrangement submitted by Goldfields Gas Transmission Pty Ltd (GGT) on 23 March 2009.

The issues paper is to help interested parties make submissions on the proposed revised access arrangement by identifying several key areas where GGT has proposed changes which may be materially significant to shippers and others. The issues paper is not an exhaustive review of the proposed revised access arrangement or the matters the Authority will address in making its determination.

The proposed revised access arrangement and access arrangement information were published on the Authority's [web site](#) on 2 April 2009, when the Authority invited public submissions.

GGT provided supporting information on 21 April 2009, to the proposed revised access arrangement and also provided a tariff model, which are available on the Authority's [web site](#). These documents provide additional information that will assist those considering making submissions.

Submissions, which the Authority will consider when making its draft decision, should be lodged by 29 May 2009, as previously advised in the Authority's Notice of 2 April 2009.
