## Water Performance Reporting

### Water, Wastewater and Irrigation Performance Report 2008

The Economic Regulation Authority has published the [Water, Wastewater and Irrigation Performance Report 2008](#).

The report is in four parts:

- Part A provides water performance data on 32 major Western Australian towns and small potable and non-potable water licensees;
- Part B provides wastewater performance data for 22 major WA towns and small wastewater licensees;
- Part C provides performance data for major towns or schemes where the data is applicable to both water and wastewater services; and
- Part D provides performance data for the four Western Australian irrigators.

The report's objectives are to:

- report on the performance of water, wastewater and irrigation supply schemes operated by WA's water delivery agencies;
- highlight comparative performance outcomes for the different towns served within WA; and
- examine service performance variations over time.
