NOTICE

Western Power Submits Proposed 2009/10 Price List

Western Power submitted a proposed 2009/10 price list to the Economic Regulation Authority on 24 April 2009, in accordance with section 8.1 of the *Electricity Networks Access Code 2004*.

The price list was submitted under the current access arrangement applying to Western Power's South West Interconnected Network. This access arrangement began on 1 July 2007 and remains in effect until proposed revisions to the access arrangement are assessed and approved by the Authority, and the revised access arrangement starts.

Western Power submitted to the Authority proposed revisions to its access arrangement on 1 October 2008, with a target commencement date for the revisions of 1 July 2009. The Authority is currently assessing these proposed revisions and based on existing timeframes, it is unlikely that the assessment process will be completed until sometime after 1 July.

In the absence of a revised access arrangement, prices for the 2009/10 pricing year will need to comply with the price control and pricing methods of the current access arrangement.

The Authority will publish a notice with its price list determination by 18 May 2009, in accordance with Chapter 8 of the Access Code.
