NOTICE

Water Licence Performance Reporting Handbook and Datasheets

The Economic Regulation Authority has published the Water, Wastewater and Irrigation Licence Performance Handbook and the Water Licence Performance Reporting Datasheets on its [web site](#).

The Authority undertook a review of water licensing in 2008, which resulted in the development of a new standard form licence template. Existing licences were substituted with the new standard licences in August 2008.

The Authority has also consolidated all of the water licence compliance and non-financial performance reporting obligations into the Water Compliance Reporting Manual. Water licences include a condition requiring licensees to provide to the Authority annual performance reports in accordance with performance reporting obligations set out in the manual.

The Authority has prepared the datasheets and handbook to help licensees prepare performance reports for the year ending 30 June 2009. Licensees are required to complete and return the datasheets to the Authority by the due date applicable to their licence.
