Promoting fair prices, quality services & choice

NOTICE

Determination of the Allowable Revenue for the Independent Market Operator and System Management, and parameters for Ancillary Service payments

The Economic Regulation Authority has determined the allowable revenue of the Independent Market Operator (IMO) and System Management (a segregated unit of Western Power Corporation), and the ancillary service Margin Peak, Margin Off-Peak and Cost LR parameters from 1 July 2010 to 30 June 2013.

The Wholesale Electricity Market Rules require the Authority to assess and determine the allowable revenue proposed by the IMO and System Management. They also require the Authority to assess and determine the ancillary service Margin Peak and Margin Off-Peak values proposed by the IMO, and the ancillary service Cost LR value proposed by System Management.

As required by the Market Rules, the Authority undertook public consultation and considered submissions in making the determinations.

The Authority's determinations and reasons for the allowable revenue of the IMO and System Management, and the ancillary service Margin Peak, Margin Off-Peak and Cost LR values, are available on the Authority's [website](#).
