## Water Performance Reporting

### WATER, WASTEWATER AND IRRIGATION PERFORMANCE REPORT 2009

The Economic Regulation Authority today published the [Water, Wastewater and Irrigation Performance Report 2009](#).

The report summarises the performance data that has been provided to the Authority by Western Australian water service providers in accordance with the performance reporting obligations set out in the Water Compliance Reporting Manual.

The report is in four parts:

- Part A provides water performance data on 32 major Western Australian towns and small potable and non-potable water licensees;
- Part B provides wastewater performance data for 22 major WA towns and small wastewater licensees;
- Part C provides performance data for major towns or schemes where the data is applicable to both water and wastewater services; and
- Part D provides performance data for the four Western Australian irrigators.

The report's objectives are to:

- report on the performance of water, wastewater and irrigation supply schemes operated by WA's water delivery agencies;
- highlight comparative performance outcomes for the different towns served within WA; and
- examine service performance variations over time.

A copy of the report is available on the Authority's [website](#).
