NOTICE

Annual Compliance Reporting for Gas Pipelines

REGULATORY INFORMATION ORDER

On 15 January 2010, the Authority issued a [notice](#) stating that it intended to undertake a consultation process under the regulatory information instrument provisions in the *National Gas Access (WA) Act 2009* (NGA) with the aim of introducing annual compliance reporting for service providers of covered gas pipelines in Western Australia.

The Authority considers that it would be appropriate to commence this consultation process following the completion of the gas access arrangement revision processes currently underway for the Mid-West and South-West Gas Distribution Systems and the Dampier to Bunbury Natural Gas Pipeline.

The Authority will issue a further notice when it is ready to commence the consultation process for annual compliance.
