## Electricity Licence Review 2010

### FINAL REPORT APPROVED

The Economic Regulation Authority has approved and released the Electricity Licence Review 2010 Final Report.

The Authority commenced the Electricity Licence Review 2010 in August 2010.

The scope of the review was to examine:

- the format of all electricity licences;
- the terms and conditions contained within all template electricity generation, transmission, distribution, retail and integrated regional licences;
- whether current deviations from the template licences should continue to exist; and
- whether further deviations from the template licences should be created, and, if so, in what circumstances.

The Electricity Licence Review 2010 Discussion Paper was released for public consultation on 23 August 2010.

Five submissions were received by the closing date. Copies of these submissions are available on the Authority's [website](#).

Specific decisions with regard to each amendment, the Authority's reasons for these decisions and a copy of the new licence templates are contained within the Final Report.

The Authority will amend all electricity licences by substitution.

A copy of the [Final Decision](#) and [Final Report](#) are available on the Authority's website.
