Inquiry into Water Resource Management and Planning Charges

FINAL REPORT DELIVERED TO TREASURER

The Economic Regulation Authority delivered its final report for the Inquiry into Water Resource Management and Planning Charges to the Treasurer on 28 February 2011.

The inquiry followed a request by the Treasurer in April 2009 for the Authority to provide the Government with a range of options and recommendations for:

- the recovery of water resource planning and management costs incurred by the Department of Water; and
- the most appropriate regulatory arrangements for the setting of service standards for the Department, the setting of charges and the recovery of charges from users.

The Treasurer has 28 days after receiving the final report to table it in Parliament. Once the Treasurer has released the final report, it will be published on the Authority's [website](#).
