**Re: Amendment to Water Operating Licence 32**

Dear sir,

The proposed changes to the operating licence was discussed at the Council meeting on 20<sup>th</sup> July 2011.

It was unanimously carried that the Shire stance is that the provision of minimum flows remain unchanged and remain at the existing levels. The maintenance of existing minimum flows to housing is considered essential.

In addition to the above, when the waterline was extended from Kondinin to Hyden the contract between the Water Corporation and the farmers was to provide a minimum of 8kL/day. Therefore any change to the minimum flow levels would be in breach of the contracts.

Yours sincerely

Alan George
