Proposed revised access arrangement for the Goldfields Gas Pipeline

Invitation for public submissions

The Economic Regulation Authority is seeking public comment on the proposed revised access arrangement for the Goldfields Gas Pipeline (GGP), available on the [ERA website](#).

On 21 December 2018, Goldfields Gas Transmission Pty Ltd (GGT) submitted its proposed revised access arrangement, access arrangement information and other supporting information to the ERA.

The GGP is a 1,378 kilometre transmission pipeline that receives natural gas from offshore fields in the north west of Western Australia. The GGP begins in Yarraloola, and extends to Kalgoorlie in the Goldfields-Esperance region. The 47 kilometre Newman lateral is also part of the GGP.

The GGP access arrangement sets out the terms and conditions under which GGT will provide access to third parties. The access arrangement information is provided to help interested parties to understand GGT's proposed revisions.

The National Gas Rules require the ERA to publish an initiating notice as soon as practicable after receiving a full access arrangement proposal. This notice is published as an initiating notice in accordance with those requirements.

The ERA will soon publish an issues paper to assist interested parties to prepare submissions on GGT's proposed revisions.

Invitation for submissions

The ERA invites interested parties to make submissions on the GGP access arrangement proposal.

Submissions close 4:00 pm (WST) Wednesday, 27 March 2019.

Submissions should be lodged online using the form on our website www.erawa.com.au/consultation.
