Approval of minor amendments to standard form contract

Wesfarmers Kleenheat Gas Pty Ltd

The Economic Regulation Authority has approved minor amendments to Wesfarmers Kleenheat Gas Pty Ltd's standard form contract.

Kleenheat holds gas trading licence [GTL10](#) to supply gas to small-use customers in the south west, between Geraldton and Busselton, including the Perth metropolitan area.¹ It is a condition of GTL10 that Kleenheat has an ERA-approved standard form contract.

On 3 December 2019, Kleenheat applied to amend its standard form contract to make it more customer friendly and be aligned with the [Compendium of Gas Customer Licence Obligations](#).

The ERA did not undertake public consultation on the minor amendments, consistent with its [Consultation Guidelines](#).

Under the *Energy Coordination Act 1994*, the ERA must not approve a standard form contract if it considers the contract does not meet the relevant regulations, the Act, any other written law, or any term, condition or provision of the gas licence. The ERA is satisfied that the amended standard form contract meets these requirements.

Kleenheat's amended [standard form contract](#) is available on the ERA website.
