

NOTICE

EXTENSION OF TIME

ACCESS ARRANGEMENT PROPOSED BY WESTERN POWER FOR THE SOUTH WEST INTERCONNECTED NETWORK

The Economic Regulation Authority (Authority) published Western Power Corporation's (Western Power) proposed Access Arrangement and access arrangement information for its South West Interconnected Network (SWIN) in the South West Interconnected System on 31 August 2005. An accompanying [notice](#) invited public submissions on Western Power's proposals with the requirement to lodge a submission by 13 October 2005.

The Authority has since received four requests for extensions of time to make submissions.

The Authority considers that the additional time requested by the applicants is essential for due consideration of all matters. The Authority is also satisfied that the applicants have taken reasonable steps to fully utilise the time afforded under the original notice. As such, pursuant to section 4.66(d) of the *Electricity Networks Access Code 2004*, the Authority has exercised its discretion to grant an extension.

Therefore, interested parties are advised that the revised time for submissions on Western Power's proposed Access Arrangement and access arrangement information is **4:00pm WST, Thursday 3 November 2005**.
