### INVITATION FOR PUBLIC SUBMISSIONS

#### **DISCUSSION PAPER ON THE WEIGHTED AVERAGE COST OF CAPITAL METHODOLOGY TO APPLY TO WESTERN POWER CORPORATION'S NETWORK IN THE SOUTH WEST INTERCONNECTED SYSTEM**

##### **Invitation to comment**

The Economic Regulation Authority (**Authority**) seeks public comment on the weighted average cost of capital methodology (**WACC methodology**) to which it must have regard when assessing Western Power Corporation's proposed access arrangement for the network in the South West Interconnected System (**SWIS**).

To facilitate public comment, the Authority engaged the Allen Consulting Group to prepare a discussion paper on the WACC methodology to apply to regulated electricity networks in Western Australia.

The Discussion Paper may be downloaded from the ERA website: [www.era.wa.gov.au/electricity](http://www.era.wa.gov.au/electricity).

##### **Access Code**

Section 6.65 of the *Electricity Networks Access Code 2004* (**Access Code**) allows the Authority to make and publish a determination of the preferred WACC methodology to apply to regulated networks.

Before making a determination, the Authority must undertake public consultation in accordance with Appendix 7 of the Access Code. Following consideration of all submissions received by the closing date the Authority will issue a determination, which is required to be published by 28 February 2005.

##### **Public submissions**

Submissions on the Discussion Paper are invited from all interested parties.

Submissions must be received by **4:00pm Wednesday 2 February 2005 Western Standard Time**. The Authority regrets that, due to the constrained time period for the making of a determination under section 6.65, it will not be possible to consider any submissions made after that time.
