### Water Performance Reporting

#### Water, Wastewater and Irrigation Performance Report 2007

The Economic Regulation Authority has published the [Water, Wastewater and Irrigation Performance Report 2007](#). The report is in four parts:

- Part A provides water performance data for 32 major Western Australian towns plus other small potable and non-potable water supply schemes;
- Part B provides wastewater performance data for 22 major plus other small wastewater schemes;
- Part C provides combined water and wastewater performance data for 36 major towns; and
- Part D provides performance data for four small irrigation suppliers.

The objectives of the report are to:

- report on the performance of water, wastewater and irrigation supply schemes operated by WA water service providers;
- highlight comparative performance outcomes for the different towns served by water, wastewater and irrigation service providers; and
- examine variations in performance over time.
