Dear Paul

REQUEST FOR COMMENT – STREET LIGHT REPAIRS

Thank you for the opportunity to comment on the proposed amendment of Part 14 of the Code of Conduct for the Supply of Electricity to Small Use Customers 2008 (the Code) as it pertains to streetlights. As a network owner, Horizon Power is directly impacted by the proposed amendments.

Horizon Power has no objection, subject to appropriate measures being established to extinguish liability for 'acts of God' such as cyclones or storms, to the introduction of a service standard payment for failure to repair streetlights within the limits prescribed in the Code. Horizon Power is satisfied that the processes we have in place to repair and maintain streetlights are well established and effective and such a change would have minimal impact on our business.

Yours sincerely
