Alinta Sales Pty Ltd

Approval of amendments to electricity standard form contract

The Economic Regulation Authority has approved amendments to Alinta's electricity [standard form contract](#). The amendments align the contract with the new *Code of Conduct for the Supply of Electricity to Small Use Customers 2022*, which took effect on 20 February 2023.

A licensee that retails electricity to small use customers is required to have an ERA-approved standard form contract.¹

Alinta holds electricity retail licence [ERL6](#), which authorises it to sell electricity to small and large use customers on the South West Interconnected System.

Under the *Electricity Industry Act 2004*, the ERA must not approve a standard form contract if it considers that the contract does not meet the requirements of the *Electricity Industry (Customer Contracts) Regulations 2005*, or will be inconsistent with the Act or any other written law, or any term, condition or provision of the licence. The ERA is satisfied that the amended standard form contract meets these requirements.
