2026 Gas Rate of Return Instrument Review Extension of time for submissions on discussion paper

The Economic Regulation Authority has extended the time for stakeholders to provide submissions on its [discussion paper](#) for the 2026 gas rate of return instrument review.

This discussion paper sets out the ERA's working views on the method for calculating the allowed rate of return on capital for gas network service providers.

The ERA is seeking stakeholder feedback on this gas instrument discussion paper and asks questions of stakeholders.

The ERA will consider the stakeholder submissions received in response to the discussion paper in the development of its draft 2026 gas instrument.

In this instance, the ERA has extended the time for interested parties to make submissions by an additional two weeks.

Invitation for submissions

The ERA invites interested parties to make submissions on the discussion paper.

Submissions close 4:00pm (WST) Wednesday, 10 December 2025.

Submissions can be lodged online using the form on our [Current Consultation webpage](#).
