13 May 2026

Arc Infrastructure - Depreciated optimised replacement costs and depreciation schedule

Extension of public consultation period

The Economic Regulation Authority has extended the consultation period for submissions on our [draft decision on Arc Infrastructure's Depreciated Optimised Costs and Depreciation Schedule](#) for the 221 route sections comprising Arc Infrastructure's network governed by the *Railways (Access) Code 2000*.

Submissions had been due to close on 13 May 2026, but Arc Infrastructure has contacted the ERA requesting a six-week extension to allow more time to review the draft decision and provide a detailed response.

The ERA has considered Arc's request and, given the commercial significance of the ERA's final decision to Arc and to interested stakeholders, has agreed to provide a six-week extension for all stakeholders. Submissions in response to the ERA's draft decision are now due by 4:00 PM on 26 June 2026.

The ERA's draft decision was published on 26 March 2026.

Invitation for submissions

The ERA invites interested parties to make submissions on the draft report.

Submissions close 4:00pm (WST) Friday, 26 June 2026.

Submissions can be lodged online using the form on our [Current Consultation webpage](#).
