Framework and approach for Western Power's sixth access arrangement review

Publication of submissions on issues paper

The Economic Regulation Authority has published [public submissions](#) received in response to an issues paper on the framework and approach for Western Power's sixth access arrangement review.

Western Power is due to lodge its next access arrangement proposal (AA6) with the ERA in February 2027. Prior to this, we are reviewing the framework and approach for our AA6 review. This will determine the services that will be regulated through the access arrangement and the broad nature of regulatory arrangements for the AA6 period.

We appreciate the input from interested parties and will consider the matters raised in these submissions in preparing the draft decision on the framework and approach.
