Note the redactions made to the text below relate to a separate topic and not the determination of the PTA DORC and depreciation schedule

Email received Friday, 28 August 2026 9:54 AM

Hi David,

[redacted]

[redacted] the PTA does not intend to pursue any further request for an extension of the consultation process or any request for additional information and acknowledges that the ERA will now progress towards its Final Determination in accordance with its statutory process. We do not propose to make any further submissions in relation to the Draft Determination.

The PTA would welcome the opportunity to continue engaging with the ERA in the future following the Final Determination in relation to the methodology and assumptions to be adopted for future annual RAB updates. We trust the ERA will be open to such future consultation.

[redacted]

Thank you again for the constructive engagement throughout this process. We look forward to continuing to work with the ERA.

Warm regards,

Jeremy Chelvam
